

Leadership Principles from Nahum

Investing for Success (Demonstrate Core Values)

The King of Assyria had invested heavily in military defenses rather than develop other leaders to follow God. Of course, the results were devastating ([Nah 3:18-19](#)). The leaders grew blind and failed in their duties, the people scattered, the leaders were unable to organize the people, the leaders did not help the people, and other nations celebrated Nineveh's destruction.

- What are you doing to continue to develop your leaders?
- What can you do to encourage them to keep their relationship with God strong?
